DETAILED ACTION

Allowable Subject Matter

Claims 17-22 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record, alone or in combination, fails to teach or fairly suggest a method of assembling, comprising: providing a cantilever beam having a plurality of bond pads on one side thereof; providing a first substrate and a second substrate, each substrate being of the same material as the cantilever beam; etching the first substrate with a plurality of trenches and a sensor cavity; passivating both of the substrates; disposing a plurality of electrodes on the second substrate; positioning a plug-in pin in each of the trenches; and mating the first substrate with the second substrate so that the plug-in pins and the bond pads are in intimate contact with the plurality of electrodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
